

## INDEVIS SHORT PROFILE

indevis IT-Consulting and Solutions GmbH, certified by the BSI, has been providing IT security, datacenter and network solutions to companies of all sizes and in diverse sectors since as early as 1999. In doing so, indevis fully meets the demands and requirements set out by the economic sector and public authorities and higher education institutions. As one of Germany's leading Managed Security Service Providers (MSSP), indevis is the ideal partner to over 1,800 clients in the fields of IT security, network and datacenter technology.

indevis regards itself as a partner to our customers with the goal of offering solutions for secure networks, taking on complicated network functions and reducing IT complexity with intelligent solutions. All of this is safeguarded by professional management and support services.

indevis has offices at its sites in Munich and Hamburg. Additional staff operate from various cities throughout Germany. indevis employs overall more than 70 people.

### MANAGED SECURITY SERVICES

Managed security services – cloud based and on-premises based – can be an interesting and intelligent alternative to inhouse operation of IT security and network solutions. With this option, specific IT security and network services are rendered from our data centers or are relocated to the indevis data centers, where they are professionally managed and supported by certified experts. We have been providing our clients IT security and network services with the highest levels of security since 1999 with our managed security services for the following requirements:

Secure Share  
Authentication  
Secure Access  
Managed Firewall  
indevis Firewall

E-Mail Security  
E-Mail Encryption  
E-Mail Archiving  
WLAN Management  
Web App Secure

DDoS Protect  
Cloud Storage  
Hybrid Backup  
Datacenter &  
Virtualization Services

### IT SOLUTIONS

#### SECURITY

Authentication, Remote Access

## VENDOR PARTNERS:

## ISO/IEC 27001 CERTIFICATION

The Bundesamt für Sicherheit in der Informationstechnologie (BSI), the German Federal Office for Information Security, certified indevis GmbH in compliance with the international standard ISO/IEC 27001 based on the IT-Grundschutz (BSI), the BSI basic IT protection methodology. The certification covers all IT systems and processes required for the provision of the Managed Security Services as well as the two datacenters, including the network and communication links provided to clients.

The information technology offered by indevis IT-Consulting and Solutions GmbH extends across all fundamental services rendered in the areas of Managed Security, Managed Network and Managed Data Center Service Providing.

## CONSULTING & PROJECT SERVICES

Our experienced consulting team analyzes your requirements together with your representatives, and recommends appropriate solutions and measures – independent of vendor, if so required.

For Palo Alto Networks customers we offer security analyses, health checks and configuration audits. We have different service packages to meet your range of requirements that ensure that you derive the greatest benefits from the implementation.

## TECHNICAL SUPPORT

indevis offers extensive support services compliant with the ITIL standard for our products and solutions. We are at your side with our competent indevis technical support service whenever you have a technical issue. Each incident is assigned a trouble ticket for documentation and tracking. The latest processing status of an incident can be retrieved at any time using the ticket number.

## TRAINING & WORKSHOPS

Our training course programs are always coordinated in alignment with the customer's requirements. We offer hands-on training at the client's site or at our indevis premises. Vendor instruction and training courses at the licensed training center with certification upon course completion are the final touches to our offering.

## About indevis GmbH

Since 1999 indevis IT-Consulting and Solutions GmbH, certified by the BSI, has been providing IT security, datacenter and network solutions to companies of all sizes and in diverse sectors. In doing so, indevis fully meets the demands and requirements set out by the economic sector and public authorities and higher education institutions.

As one of Germany's leading cloud and managed service providers, indevis is the ideal partner for network technology and IT security to over 1,800 clients.

indevis offices are located in two cities in Germany: Munich and Hamburg. Additional staff members work at a number of other locations distributed throughout Germany. indevis employs more than 70 staff in total.
